- line B
- line C

Omar dialed 911. The switchboard operator transferred him to the police when he explained that he had been robbed. Omar said that the thief had taken about \$200 and his violin, which was worth about \$800. Besides that, there was the broken door and damaged lock.

The police officer was very calm and told Omar that there had been another robbery reported a few blocks away last night. He would send a squad car over to look around the house in a few minutes. The police officer also suggested that if some of the family might stay the night with a friend or relative, but that one of the adults should stay to guard the house and to receive the police when they arrive.

What was the total value of Omar's losses?

- about \$200
- the story doesn't say
- about \$1000
- about \$800

When would the police send other officers to Omar's house?

- the following day
- he would send the fire department instead
- in about an hour
- in a few minutes

How did Omar contact the police?

- he saw a policeman in the neighborhood
- he dialed 911
- he emailed them
- he drove to the police station

Izaiah wants to play the violin like his father. His father was a famous violinist when their family lived in Kenya. Now his father has little time for the violin since they moved to the United States, but he plays whenever he can.

Izaiah would like to play with the very best musicians in the world when he grows up. Therefore, he is working hard to get better. He practices one and a half hours every day and takes lessons once per week. He hopes to go to college to study music.

What is a violin?

- television
- radio
- musical instrument
- sport

What is Izaiah doing to be able to play the violin better?

- working with his father
- practice, take lessons
- making his own violin
- moving to Kenya
