## Mayberry Inc. Health Benefits

Mayberry Inc. offers a great healthcare package for our employees. Employees may choose health coverage for themselves and their families at no extra charge. Mayberry Inc. has two health plan options for its employees.

**Silver Select:** Employees pay the first \$500 dollars of their medical expenses, including their prescription medicines. After employees have paid this \$500 deductible, all employee medical expenses are free, including prescription medicines. This plan offers one advantage to employees; they can choose any doctor and hospital from a large number of approved healthcare providers.

**Gold Guarantee:** Employees pay a co-pay of \$30 for each doctor's visit and a \$12 co-pay for each prescription. Employees must choose a doctor and healthcare provider from the Gold Guarantee plan, except in the case of an emergency. One major advantage of this plan is that employees who do not need to see the doctor or buy prescriptions often will save money.

- 
51. What is one good thing about the Silver Select plan?
- A. Employees have many doctors and hospitals to choose from.

## Garner and Griggs Health Benefits Options

Garner and Griggs offers great healthcare benefits for our employees. Employees may choose health coverage for themselves and their families at no extra charge. Here are the two options available to Garner and Griggs' employees:

**Premium Deductible Plan:** Employees choose to pay a deductible of \$500 yearly. After employees pay their first \$500 of medical expenses, their coverage is free. There are two advantages to this plan. First, all prescriptions are free. Second, employees can choose any doctor and hospital from a list of approved healthcare providers.

**Gold Choice Co-Pay Plan:** Employees choose to pay a \$30 co-pay for each doctor's visit and a \$10 co-pay for each prescription. Employees must choose a doctor and healthcare provider from the Gold Choice plan, except in the case of an emergency. One advantage of this program is that you may save money if you do not need to see the doctor often or buy fewer prescription medicines.

## Narrative

Nan Vang came to the United States with her parents, Kor and Pa Vang. They lived in Chicago for the first three years and then moved to St. Paul two years ago. Nan is a stock clerk at Target working full time. One of the benefits that she really likes is the health insurance.

On her medical history form, she put her father as her emergency contact person. She also had to record some information about any allergies she has to foods or medications. Her parents both are allergic to seafood and pork but Nan is not. She is allergic to peanuts. So they all have to be very careful when they eat out. Nan also had asthma when she was younger, but now she has pretty bad migraine headaches. She needs to take prescription medicine, 'Avert'.
